

## **FRANK J. FLOWERS** **Project Manager**

### **Experience**

---

Franklin started with Inman Foodservice Group as a CADD operator in 1999, producing mechanical, electrical and plumbing rough-in drawings, detail elevations and isometric views, and converting architectural documents and schedules to provide a complete set of bid documents and equipment cut sheet books.

Mr. Flowers maintains an open line of communication between the Architects, Engineers, General Contractors and Owners for each project to insure a smooth transition between concept views and the actual working facilities. He has expertise working in the Healthcare segment of the industry, working from the back-of-the-house kitchen designs to front-of-the-house servery designs. Franklin's dedication and attention to detail has been recognized by many clients, resulting in future work with those clients, as well as positive referrals for new client relationships.

### **Academic Background**

---

Dickson County High School, Dickson, Tennessee
