

Julie Jones
Project Manager

Experience

Julie started with Inman Foodservices Group as a Project Manager in the Miami office in 2006. Prior foodservice experience includes a background in restaurant operations, twelve years with a major foodservice equipment contractor and one year with a major worldwide professional foodservice consulting firm prior to joining Inman Foodservices Group. She is familiar with all types of commercial and institutional foodservice facilities including restaurants, resorts, stadiums, schools and correctional facilities. Julie is experienced in all aspects of foodservice design consulting from concept to completion including facility design, equipment selection, specifications, budgeting, custom fabrication drawings, details and onsite project management.

Julie facilitates communications between the Owners, Architects, Engineers, and General Contractors to make certain all team members are up to date on project developments. She is at ease in both the office and the field. Her proactive approach to potential problems, her commitment to high standards and her dedication are geared to ensure owner satisfaction.
